

When I heard about Sinclair Broadcastings plans to air an anti-Kerry program on 62 stations prior to the election without running a counter program as required by law, my heart sank.

Have we truly sunk so low that a big media entity like Sinclair can break the law with impunity, do something so disgusting and partisan and walk free? Please stop Sinclair from running this program or at least make them adhere to the regulations and run a balancing program like "Going Upriver". Or run "Bush Family Fortunes".

The growing threat of media monopoly is frightening to any democratically minded free citizen and I for one do not want to live in the shadow of Pravda.
